

## SAFETY, HEALTH AND ENVIRONMENTAL POLICY

PowerPak Ltd. aims to be selected as the contract packaging and manufacturing service provider of choice to the leading brand owners in Europe's household chemical sector. PowerPak Ltd is committed to fully comply with the requirements of ISO 14001:2015 and OHSAS 18001:2007 management systems to reduce the environmental impact of its activities, products and services, and to continuously improve its health and safety performance.

In our management system, we undertake to continually explore the possibilities for contributing to sustainable development by:

PowerPak Ltd. will strictly adhere to environmental, health and safety governing regulations and other regulations as a minimum.

We are committed to continuously improving our environmental, health and safety performance.

We strive to continuously explore and effectively manage the environmental and occupational safety risks. We are taking measures in order to minimize or control any pollution emissions.

We are constantly working to prevent accidents and pollution from our company.

The management's responsibility to provide adequate resources for the implementation of the PowerPak Ltd. Environment, Health and Safety policy and decisions on the environment, health and safety considerations to take into account.

Occupational safety is everyone's responsibility, so we expect all our employees to contribute to the prevention of accidents, the health and safety hazards reports, analysis and control. Its implementation is to support efficient and effective training programs.

We continuously develop and improve our environmental, health and safety management systems at work in order to provide adequate and effective help in achieving environmental, health and safety objectives.

Peter Frost

Managing Director
